FLAG DAY PROCLAMATION  
Monday, June 14, Designated by the  
Governor.

Hartford, Conn., May 18.—Governor  
Marcus H. Holcomb today issued a  
proclamation designating Monday,  
June 14, as Flag day. The proclama-  
tion follows:

STATE OF CONNECTICUT.  
By His Excellency,  
MARCUS H. HOLCOMB,  
Governor.

A Proclamation.  
In accordance with the provisions of  
the statutes, I hereby designate Mon-  
day, June 14th, as

FLAG DAY.

Not for what it is, but because it  
symbolizes all that this country has  
been, is, and hopes to be, the flag de-  
signates a day of homage and rever-  
ence. Across the seas, men, women, even  
children, are offering for their coun-  
tries a bitter sacrifice of suffering. Yet  
our land has beyond it a nobler heri-  
tage of devotion in time of war and of  
high endeavor in time of peace than  
has ours, none has the right to stand  
more proudly among its fellows, none  
holds a fairer promise for the future,  
for its own and other peoples. In a  
peculiar degree at this time all citi-  
zens are called upon to bear these things  
in mind. I therefore ask that this "Flag  
day" be observed by all schools by  
proper exercises, in theatres and else-  
where, and by a general display of  
the flag upon public and private build-  
ings.

Given under my hand and the seal  
of the state at the capitol in Hartford  
this 15th day of May, in the year of  
our Lord nineteen hundred and con-  
fession and fifteen of the independence  
of the United States the one hundred and  
thirty-ninth.

By His Excellency's command:  
CHARLES D. BURNES,  
Secretary.

Worthy, a messenger of the house, \$100  
additional for extra services as mail

tive committee.

## HOPKINS AND ALLEN PLAN EXPLAINED

Put in Favorable Light Before Citizens' Meeting Under Board  
of Trade Auspices—Local Subscriptions Not Demanded  
as Condition of Locating Here—Moral Support Desired  
and Financial Backing Where Possible—Promoters Have  
Determined to Locate Plant Here—Expect to Produce  
First Guns in Three Months.

Before the May meeting of the Board  
of Trade on Tuesday evening, which  
was held in the town hall and made  
a meeting for the citizens generally,  
the proposition for the formation of  
the Hopkins & Allen Arms Co., of  
Massachusetts and its location here  
was put in a very favorable light and  
the temper of the meeting was evi-  
dently kindly toward it. It was  
explained, would be of vast material  
advantage to the community.

Straightforward explanations of the  
plan of the new company, which is  
absorbing the old, were made by those  
who are to be connected with it ques-  
tions and answers were numerous  
and the meeting was a most interest-  
ing affair.

President Frank J. King opened the  
meeting, stating to the 400 men pres-  
ent that the Hopkins & Allen matter,  
which was of vital interest, would be  
truly a blessing to the town if it were  
understood that this meeting was not  
called for the purpose of foisting  
stock upon the public, but was to give  
the citizens the new enterprise in an  
indication of the way the propo-  
sition would be received here. They  
were seeking the goodwill of the peo-  
ple and the financial aid of the town  
to be of big material advantage to the  
community.

President King introduced Charles  
E. Heller, of Boston, attorney for the  
new enterprise, to describe the plan of  
the new company.

Mr. Heller told his audience that  
he had no desire to remind them of the  
great demand for firearms occasioned  
by the war in Europe, so great that  
everyone capable of producing rifles  
was being called upon to do so. Nor-  
wich happens to have an old establish-  
ment, well fitted to turn out  
rifles, and to be the nucleus of a plant  
to produce thousands of rifles.

Mr. Heller said that the Hopkins &  
Allen plant would be a permanent in-  
dustry for Norwich. It would be a  
plant to produce thousands of rifles  
and to be the nucleus of a plant to  
produce thousands of rifles.

Coming Here.  
Referring to stock subscription  
blank which had been distributed  
which stated that the subscription  
is not valid unless 9,000 shares are sub-  
scribed to before May 25, 1915. Frank  
J. Aubrey asked if this meant that the  
concern would not come here unless  
this amount were raised in Norwich.

Mr. Haskell answered that it did not  
mean that 9,000 shares had already  
been subscribed in Boston and it was  
not necessary to subscribe a share here  
as a condition of coming. If the 9,000  
shares had already been subscribed the  
company would come here but the same.

A question from Albert Boardman  
brought out the point that shareholders  
would be obliged on July 1, 1915,  
to exercise their option for cash or  
common stock for their preferred  
stock.

George S. Watts, secretary and  
treasurer of the Hopkins & Allen Arms  
company of Norwich, was applauded  
when he spoke, stating that this seem-  
ed a very favorable opportunity and  
would open a way for all the work-  
men who could do so. He was glad  
it was coming on account of the  
fact that the local plant, who had  
been on short time, as it was such a  
big proposition that no small plant  
could handle it alone.

Vote of Thanks.  
A rising vote of thanks was given to  
the men who had explained the pro-  
ject.

James L. Case commended it as a  
worthy business proposition and hoped  
that the stock subscription would be  
here. The profits on the 400,000 gun  
contract would be \$5,000,000 and from  
an investor's standpoint it seemed ab-  
solutely safe.

Subscribed to Stock.  
Opportunity was given to receive  
any subscription and Samuel Kronig  
handed in his name for five shares and  
applauded. Mr. Case said 100  
shares had already been subscribed in  
this city and Mr. Watts had indicated  
his confidence in the proposition by  
subscribing for 3,000 shares.

Fraser J. Aubrey spoke again, saying  
that it was so seldom Norwich got  
something for nothing that this had  
taken us off our feet. He thought by  
the time the information given in this  
meeting had been circulated there  
would be no doubt subscriptions would  
be received.

More Contracts.  
Other points brought out in answer  
to questions were that the minute the  
stock subscription is filled the com-  
pany will start manufacturing and the  
minutes that it started the govern-  
ment will sign another contract for  
500,000 guns. The organization of the  
new company is all complete with the  
working staff under option. The com-  
pany is guaranteed payment as fast as  
shipment of guns are made and does  
not have to deliver them in New York.  
The time for the receipt from here is  
warrant for payment in New York  
funds.

It is expected that guns will be  
turned out three months from the time  
the company starts manufacturing.

H. R. Branche inquired if this were  
to be a Connecticut company and Mr.  
Heller told him it was to be a Massa-  
chusetts company because the bulk of  
the stock would be subscribed in Mas-  
sachusetts, where it was non-taxable.

In answer to a question, Attorney John  
P. Huntington said the stock would
